Artist: Talla 2XLC feat. Skysurfer  
Title: Buenos Aires  
Release: 2nd Sept. 2011

## Info

Talla 2XLC and Andreas Krämer a.k.a. Skysurfer are back! After their huge success "Terra Australis" these both masters of trance have produced a new EP together that consists of two real floorburners. "The Myst" is a powerful track that Talla has been spinning for some months at his gigs, always causing huge reactions by the crowd. Finally it comes to a release of this really epic masterpiece of uplifting trance music. A wonderful built up and a nice melody, that's the way emotional electronic music should sound in 2011. "The Myst" in the Solid Sleep Remix has all requirements to rock the world's dancefloors just like "Terra Australis" did it. But we should not forget the second track, "Buenos Aires" (Club Mix), that got its name after Talla's trip to the capital of Argentina as a dedication to the enthusiastic party people of this city. It is a big room anthem that is also predestinated to be played at the huge festivals all around the globe. Creating a very special atmosphere with progressive beats and heavenly melodies, that is what Talla and his buddy Andreas Krämer are capable of like only a few others in the business.
