

TETS124 Talla 2XLC pres. Akato - Satisfraction

Artist: Talla 2XLC pres. Akato
Title: Satisfraction
Release: 26th Aug. 2011

Info:

Talla 2XLC, the man behind the legendary Frankfurt-based Technoclub and DJing with lots of passion for decades, is a true legend of electronic dance music. Everybody knows his anthems such as "World In My Eyes", "Shine" and of course also his latest masterpiece "Seven". Together with his production partner Andreas Krämer (Solid Sleep, Skysurfer, Aquaplex) he introduces a brand new project: Akato. In a brilliant way these two soundwizards show that nobody has to make a choice either listening to progressive or uplifting trance – Talla and Andreas Krämer just take the best of both genres and create a track with an evil and pumping baseline and a beautiful melody coming in later in the Akato Mix of "Satisfraction". Crossover, baby! The VV Mix of the track does not sound that dark and it has a more uplifting vibe in it. So there can be found the right version for everyone's taste and that is why we can assume that this very special track will be played in many DJ sets during the next months for sure.
